

Careify™ Health Check

As the COVID-19 pandemic response continues to evolve, various federal, state, and local mandates require that many individuals and/or employees of certain entities be vaccinated against COVID-19 or provide weekly testing results.

Public Consulting Group (PCG)—a national leader in COVID-19 services, including contact tracing, testing programs, and vaccine support—is ready to help your organization meet the needs of safe-return plans and compliance with these federal, state, and local mandates and timelines.

PCG is proud to offer Careify Health Check (HC), a secure mobile application and web-based system that can track, gather, and organize employee health, vaccine, and test information securely and conveniently. This effective, user-friendly tool helps provide essential information to support compliance and help you rise to the ongoing challenges of COVID-19. Careify HC is a paid subscription service available on all smartphone devices via the Apple App Store or Google Play Store for easy download.

Offerings of Careify HC include:

1. Daily Health Check

Using the Daily Health Check feature, employees can enter symptoms and other key information such as possible exposures to COVID-19, travel, and test administration

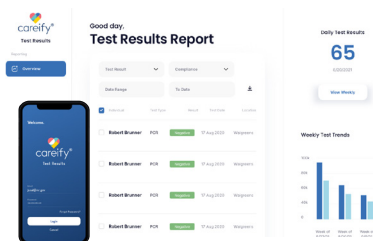

2. Vaccination Records

Employees can securely upload vaccination records to meet requirements of the vaccine mandates by just entering a few key items about their COVID-19 vaccination, including photo upload of COVID-19 vaccine cards

3. Test Results

Individuals who meet the requirements for exemption, where applicable by law, and follow the testing protocol are able to submit lab test results outside of the workplace setting and confirm results with photo record for safe-return.

Careify HC was developed to help public organizations, school districts, nonprofits, and private businesses meet the requirements of vaccine mandates

and ease the burden on record keeping and program monitoring. PCG's expertise in public health crisis response and experience in COVID-19 services will help give you confidence in the health of your organization and workforce.
